## Tech Guide 2022

## Event info

<p>Poison Ivy</p>	<p>There is poison ivy in the Ganaraska forest. The trails are clear but off trail there is plenty of poison ivy. We recommend if you have long socks or trail pants to wear those to be safe and stay on the trails at all times.</p>
<p>Location</p> 	<p>Venue/ Millbrook Agricultural Fairgrounds</p> <p>Parking: 13 Frederick St Millbrook, Ontario L0A 1G0</p> <p>Trails: Millbrook Valley Trails</p> <p>Date: October 2nd, 2022</p>
<p>Format</p>	<p>Enduro races are composed of multiple timed stages, predominantly downhill, over the course of an adventurous ride. The premise is that it mimics a group ride where you ride together with your friends to the stages and then race each other down a trail, regroup at the bottom and repeat.</p> <p>Racer will follow the mark trails to the start of each stage where timing will start. At the end of the stage the timing stops and riders work their way to the next stage, this is the “transition” and is not timed.</p> <p>The trails mostly have a sandy base (this does vary at times) and include mostly natural technical features that will have an indicated B-line option. Their claim to fame is the extremely well built jumps and lips built right into the flow of the trail.</p> <p>Riders have to be self-sufficient, there is no tech zone along the course to repair any mechanicals or get outside support. Please carry what you need for the day.</p> <p>This year’s format will be different as we do not have access to the Ganaraska forest for the enduro, due to all the damage from the May wind storm. We will only be using the Millbrook Valley Trails and so to make up for the smaller amount of trails available we will be having a 2 part Enduro. We will have a morning and afternoon course, separated with a lunch break in the middle. We will have a cash BBQ (\$5) on site for riders to get food. There will be 3 stages per course, with slight variations to the repeated stages, see course map below.</p>
